* Dilution ratios for no rinse applications: Tri-Pow'r HD= 10:1, CalClean Special HD= 40:1, CalClean= 10:1

NU-CALGON COIL CLEANING COMPARISON CHART

CLEAN COIL® PROGRAM

STEP 1 - CLEAN:

Clean indoor (evaporator) and outdoor (condenser) coils with Nu-Calgon's quality products that are designed to restore original Btu output and improve airflow.

STEP 2 - PROTECT:

Apply Cal-Shield® with Teflon® to the evaporator and condenser coils to repel dirt and keep the coils cleaner longer.

STEP 3 - KILL BACTERIA:

Improve Indoor Air Quality by killing bacteria on evaporator coils, drain pans, and ductwork with Bio-Fresh® cd or Evap-Fresh®. Bio-Fresh cd is an EPA registered product that is a bacteriostat, fungistat, and deodorizer. Evap-Fresh is both a cleaner and disinfectant that is also EPA registered to kill organisms typically found in HVAC systems.

STEP 4 - PREVENT:

Place Nu-Calgon PanPads, an EPA registered drain pan biocide, in the evaporator drain pan. This prevents biological growths and slime. This protection will last up to 6 months.
